Sortie Air
Parallèle
à l'axe
Direction Vers
les Freins

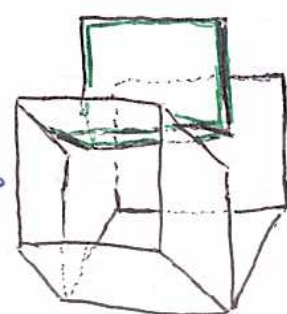

entrée
de l'air

⇒

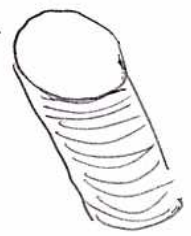

+

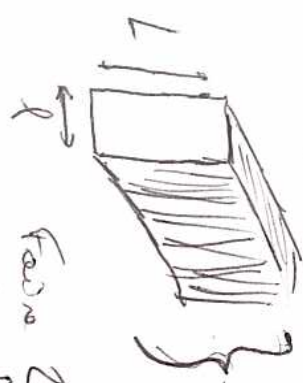

Pour le côté gauche.

Prendre Tube $\phi 120\text{mm}$

et faire une Section rectangulaire

Circonférence
628mm.

$$\text{Façon } 2L + 8 = 628\text{mm}$$

$$L \times 8 = 3145\text{mm}^2$$

Si on fait une
Section Ronde on
Sortira de Boîte
